Healthy Beverage Action Plan

Effective January 1, 2012, the Healthy Beverages in Child Care Act (AB 2084) states that all licensed child day care facilities in California must comply with certain beverage requirements:

- Water available to children at all times, including at meals and snacks.
- Only 1% or nonfat unflavored milk served to children ages 2 and older.
- No more than 1 daily serving (in age appropriate portion size) of 100% juice.
- No beverage containing natural or artificial sweeteners.

Help make the child care environment healthier for the children in your care by adopting the Healthy Beverage Action Plan!

Goals: What’s all the Fuss?

Goal: Something you want to change or achieve.

When setting a goal, select a major goal and minor goal.

The MAJOR goal is the big picture or long-term goal.

_E.g._: Provide more water to children during the day.

The MINOR goal is an action plan or what you are going to do this week.

_E.g._: Serve water at all meals and snacks during the week.

Use this to help you set a GREAT G.O.A.L.

**G** _Going to do_. Something you are adding, not something you are taking away. “I am going to...”

**O** _On target_. Exactly how you will do it. Be specific.

**A** _Attainable_. You know you can do this.

**L** _Linked_. Your major goal is linked to your minor goal.
Healthy Beverage Goals

Check one major goal you would like to work on. Then choose one of the minor goals beneath it to work on this week.

**Major Goals**

Focus on one of the beverage categories under AB 2084:

- Water
- Milk
- 100% fruit juice
- Sugary drinks

3 ways to do this would be:

**Minor Goals**

1. __________________________________________________________
   _______________________________________________________

2. __________________________________________________________
   _______________________________________________________

3. __________________________________________________________

Healthy Beverages Goal Contract

Writing what you plan to do and sharing it with others will help you reach your goal.

Copy the goal you selected. Then, sign the contract. You can also ask a colleague, such as another member of your child care facility or another child care provider, to sign it, too.

I will try my best to:

New and Improved Goals

Over the next few weeks, select new beverage goals to work on!

Week 2: ______________________________________________________

Week 3: ______________________________________________________

Week 4: ______________________________________________________

Week 5: ______________________________________________________
A barrier is something that gets in the way of reaching your goal. Recognizing barriers can help you figure out solutions so you can achieve your goals.

What are some barriers to your goals?

________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

Solutions or ways to get around the barriers:

________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
Reward Yourself!
You deserve it!

When you try to make a change and set a goal, remember to reward your accomplishments and do it often.

Knowing that you are going to be rewarded for your hard work will motivate you to reach your goal. Plan ahead how you will reward yourself when you reach your goal.

List 3 ways you can reward yourself for reaching your goal this week.

1. ______________________
2. ______________________
3. ______________________

Rewards don’t have to be costly!

Here are a few examples: bubble bath, watch a movie with friends, pedicure at home, a special treat like flowers, lip gloss, candle, book, or CD.
Cues
How to Stage Your Life for Success

What are cues?
Cues are things that cause you to act. *Examples:* post-it note reminders, water bottles filled with water, etc.

Cues can be positive or negative. **Positive** cues lead to healthy actions. **Negative** cues get in the way of healthy actions.

Get rid of negative cues and stage your life for success

What are some cues that may get in your way of reaching your goals this week?

Roadmap for the Future

Why is it that we often set a goal or try to make a change and then never get to reach it? Making a change is difficult but following the tips below will help you.

Make sure the goals are **short-term**.

- Instead of: This summer, I will limit juice intake to once a day.
- Try: This week, I will only serve juice once a day.

Set goals that are **specific**.

- Instead of: I will provide healthier beverages for the children in my care.
- Try: I will not provide beverages that have any natural or artificial sweeteners in them (e.g., fruit drinks, lemonade, soda, horchata).

Set goals that are challenging but **realistic**.

- Instead of: The only beverage I will serve is water.
- Try: I will serve water at snack and meal times every day this week.
Using the goal tips above, create a new goal for this week.

Example

I will try my best to:

Only serve 100% fruit juice once a day

(Goal)

3 days this week

(Number of days this week)
